

Distributive Property

Name _____

Date _____

Addend _____	Expression $24 + 16$	Addend _____
/		/
GCF = _____ = _____		

Application of Distributive Property- Factor out the *GCF* from the sum of two whole numbers to create an equivalent expression.

Addend _____	Expression $36 + 15$	Addend _____
/		/
GCF = _____ = _____		

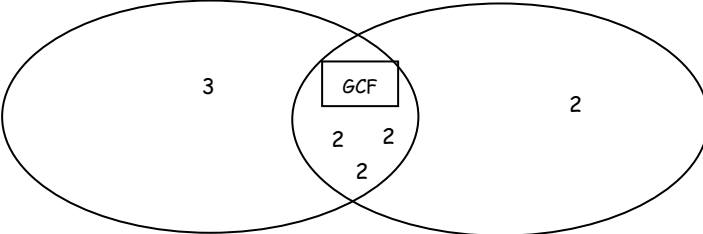

Application of Distributive Property- Factor out the *GCF* from the sum of two whole numbers to create an equivalent expression.

_____ (+)

Expression: $40 + 25$ Application of the Distributive Property. _____ (+)	Expression: $42 + 12$ Application of the Distributive Property.	Expression: $48 + 28$ Application of the Distributive Property.	Expression: $54 + 36$ Application of the Distributive Property.

Distributive Property

Answer Key

Addend <u>24</u>	Expression $24 + 16$	Addend <u>16</u>
$2 * 2 * 2 * 3$		$2 * 2 * 2 * 2$
$GCF = 2 * 2 * 2 = 8$		

Application of Distributive Property- Factor out the *GCF* from the sum of two whole numbers to create an equivalent expression.

$8(3 + 2)$

Addend <u>36</u>	Expression $36 + 15$	Addend <u>15</u>
$2 * 2 * 3 * 3$		$5 * 3$
$GCF = 3 = 3$		

Application of Distributive Property- Factor out the *GCF* from the sum of two whole numbers to create an equivalent expression.

$3(12 + 5)$

<p>Expression: $40 + 25$</p> <p>$40 = 2 * 2 * 2 * 5$ $25 = 5 * 5$</p> <p>$GCF = 5$</p> <p>Application of the Distributive Property. $5(8 + 5)$</p>	<p>Expression: $42 + 12$</p> <p>$42 = 2 * 3 * 7$ $12 = 2 * 2 * 3$</p> <p>$GCF = 2 * 3 = 6$</p> <p>Application of the Distributive Property. $6(7 + 2)$</p>	<p>Expression: $48 + 28$</p> <p>$48 = 2 * 2 * 2 * 2 * 3$ $28 = 2 * 2 * 7$</p> <p>$GCF = 2 * 2$</p> <p>Application of the Distributive Property. $4(12 + 7)$</p>	<p>Expression: $54 + 36$</p> <p>$54 = 2 * 3 * 3 * 3$ $36 = 2 * 2 * 3 * 3$</p> <p>$GCF = 2 * 3 * 3$</p> <p>Application of the Distributive Property. $18(3 + 2)$</p>
